

Project Design Phase-II

Data Flow Diagram & User Stories

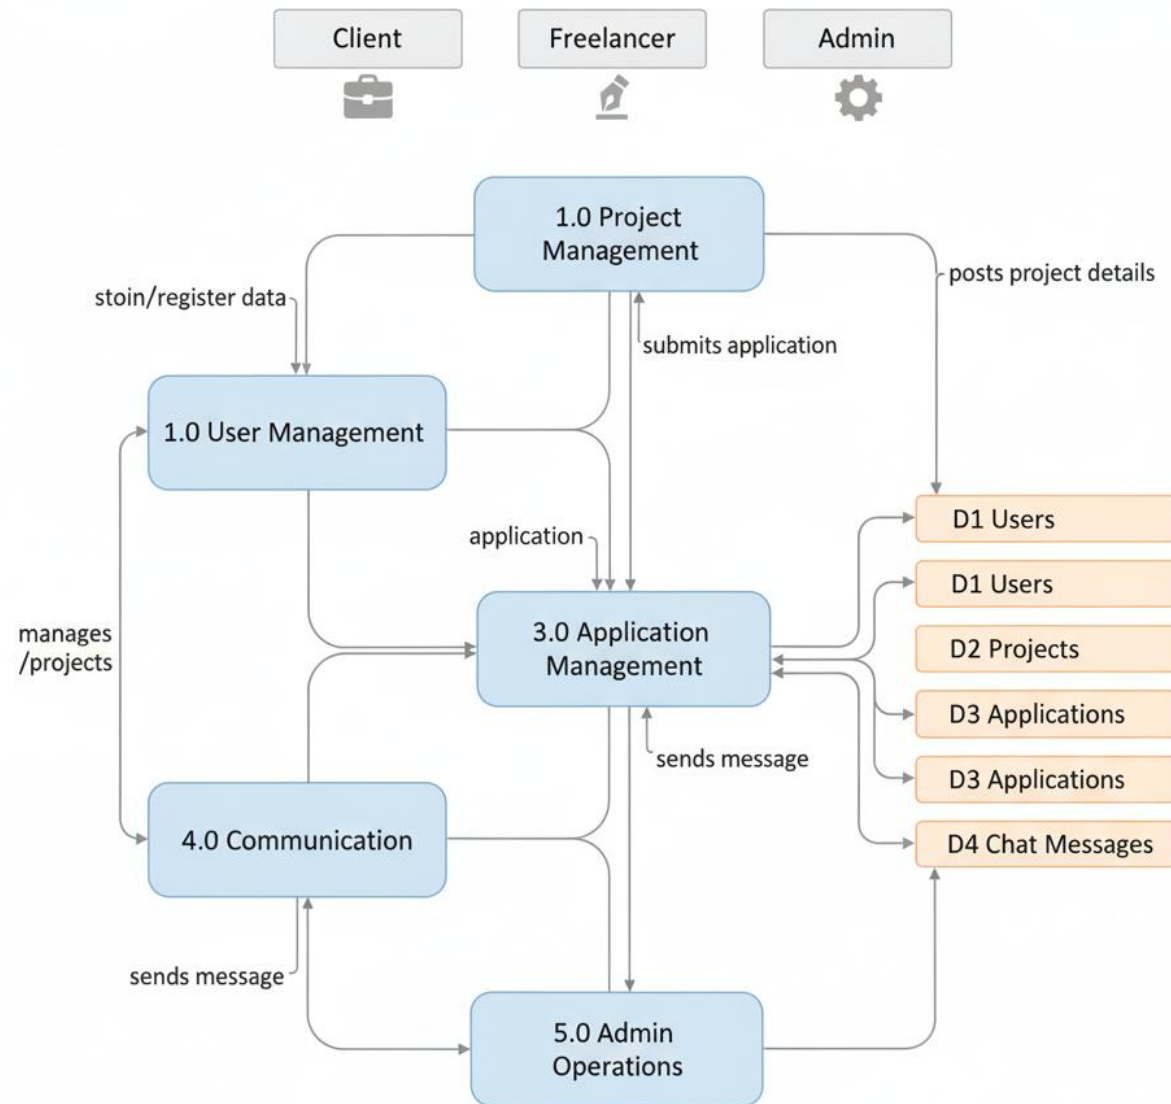

Date	11-10-2025
Team ID	SWUID20250177148
Project Name	SB Works
Maximum Marks	4 Marks

Data Flow Diagrams:

A **Data Flow Diagram (DFD)** illustrates how data moves within the **SB Works** platform. It captures how users (Clients, Freelancers, and Admins) interact with the system, how information flows between different processes like authentication and project management, and where that data is ultimately stored in databases.

User Stories

User Story Table – Freelance Finder

User Type	Functional Requirement (Epic)	User Story / Task	Acceptance Criteria	Priority	Release
Client	Project Posting	As a client, I want to post a new project with a title, description, budget, and required skills.	The project appears on the main "All Projects" page and in my personal dashboard.	High	Sprint-2
Freelancer	Project Discovery	As a freelancer, I want to browse and filter available jobs to find relevant opportunities.	The project list updates correctly when a skill filter is applied.	High	Sprint-2
Freelancer	Job Application	As a freelancer, I want to apply to a job by submitting a detailed proposal and bid amount.	My application is successfully submitted and becomes visible to the client.	High	Sprint-3
User	Collaboration	As a user (client or freelancer), I want to chat in real-time with the other party about an active project.	Messages are sent and received instantly without a page refresh.	High	Sprint-4
Freelancer	Profile Management	As a freelancer, I want to update my profile with my skills and a personal description.	The changes I make are saved successfully and are visible on my profile page.	Medium	Sprint-2
Admin	Platform Oversight	As an admin, I want to view all users and projects on the platform from a central dashboard.	The dashboard correctly logs and displays all registered users and created projects.	High	Sprint-4
